PETITION FOR LEAVE TO AMEND

HEALDSBURG EMPIRE CORPORATION ("Empire"), by its attorneys, respectfully requests the Presiding Judge to accept the attached amendment, which is proffered in response to Paragraphs 21 and 22 of the Hearing Designation Order, DA 92-577, released May 20, 1992, in this proceeding. In support hereof, Empire shows as follows:

1. The amendment is filed pursuant to the express direction of the Assistant Chief of the Mass Media Bureau's Audio Services Division. Acceptance of the amendment will not confer any comparative advantage on Empire and will not require addition of any issues or parties.

WHEREFORE, Empire respectfully requests acceptance of the proffered amendment.

Respectfully submitted,

HEALDSBURG EMPIRE CORPORATION

AMENDATORY STATEMENT

RECEIVED

JUN 19 1992

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

The pending application (File No. BPH-910212MM) of Healdsburg Empire Corporation ("Empire") for a new FM broadcast station on Channel 240A, Healdsburg, California is amended to include the attached Statement of Gerhard J. Straube, which addresses the RF radiation issue raised in the Commission's Hearing Designation Order ("HDO") in this proceeding. In addition, the HDO requires Empire to supply the names of Hispanic organizations which it will contact for Equal Employment Opportunity purposes. In response thereto, Section IV of Empire's Form 396-A is amended to include the following organizations:

California Chicano News Media Association
Mujeres Unidas
United Latins of Sonoma County
Hispanic Small Business Center
National Association of Hispanic Journalists

HEALDSBURG, CALIFORNIA**

STATEMENT OF GERHARD J. STRAUB, CONSULTING ENGINEER

The firm of Hammett & Edison, Inc., Consulting Engineers, has been retained by Healdsburg Empire Corporation to prepare an engineering statement demonstrating compliance with ANSI C95.1-1982 regarding human exposure to RF radiation.

BACKGROUND

Healdsburg Empire Corporation has filed an application for construction permit for a new FM station on Channel 240A, 95.9 MHz, at Healdsburg, California, FCC File No. BPH-910212MM. In the Hearing Designation Order for MM Docket No. 92-111, released May 20, 1992, the Commission stated that the issue of protection of workers on the proposed tower from excessive exposure to RF radiation was not adequately addressed. This statement addresses that concern.

ENVIRONMENTAL CONSIDERATIONS

Grant of the application is not considered to be a major environmental action as defined by Section 1.1307 of the FCC Rules. The proposed facilities are calculated to comply with ANSI C95.1-1982 regarding human exposure to nonionizing electromagnetic radiation. Calculations made in accordance with procedures and formulas contained in FCC OST Bulletin No. 65 show that the proposed operation would contribute less than 5 percent of the ANSI Standard at 2 meters above ground, assuming typical FM antenna performance of 20 percent downward radiation.

As stated in the original application, the applicant acknowledges its responsibility to establish appropriate preventive measures to avoid occupational exposure conditions in excess of ANSI guidelines. In order to accomplish this, all radiation from the proposed facility should be ceased when workers require access to the tower, unless measurements or more detailed calculations show that less stringent measures provide sufficient protection.
